MANMEET SINGH

Ludhiana, Punjab | manmeetsinghvirdi41@gmail.com | +91 78885 40593 | https://www.manmeetsingh.me/ | www.linkedin.com/in/manmeet-singh-0b91262b6 | https://github.com/manmeet8549

PROFESSIONAL SUMMARY

Full Stack Developer with a strong foundation in web development and Data Structures & Algorithms. Skilled in building responsive and scalable applications using modern technologies. Passionate about problem-solving, developing efficient solutions, and continuously learning new tools and frameworks to create impactful software.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python, SQL

Backend: Node.js, Express.js, Spring Boot, RESTful APIs

Frontend: React.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3

Database: MySQL, MongoDB, Firebase, Supabase

Cloud & DevOps: Git, GitHub, Docker, AWS (EC2, S3), Maven

Data Structure and Algorithm: C++

PROFESSIONAL EXPERIENCE

Data Science Intern | DUCAT

May 2025 - July 2025

Ludhiana, India

- Built and evaluated an XGBoost regression model to predict dish ratings from ingredient data using a dataset of 1000 recipes
- Designed a data preprocessing pipeline with ingredient cleaning and TF-IDF vectorization for feature extraction
- Achieved **RMSE of 0.63 and MAE of 0.52** on a 5-point rating scale, indicating strong prediction accuracy
- Developed an evaluation script to replicate preprocessing and **automate model validation using Scikit-learn metrics**
- Set up the ML environment and dependencies (**XGBoost, Scikit-learn**) to ensure reproducibility and model consistency

PROJECTS

Roofing Services Website |

Jan 2026 – Feb 2026

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- *Developed a responsive full-stack website for a roofing services business to showcase services and generate customer leads*
- *Built dynamic frontend using React.js and Tailwind CSS for a modern and user-friendly interface*
- *Implemented backend using Node.js and Express.js to handle contact forms and customer inquiries*
- *Integrated database (MongoDB) to store and manage user queries efficiently*
- *Focused on mobile responsiveness and performance optimization for better user experience*

IoT-Based Temperature & Humidity Monitoring System |

Dec 2025 – Jan 2026

Arduino/ESP8266, Sensors (DHT11/DHT22), Python/Node.js, Cloud Integration

- *Designed and developed an IoT system to monitor real-time temperature and humidity using sensor modules*
- *Collected environmental data using microcontroller (Arduino/ESP8266) and transmitted it to a server/cloud platform*
- *Built a simple dashboard to visualize live sensor data for monitoring and analysis*
- *Implemented data logging for tracking environmental changes over time*
- *Focused on low-cost and efficient solution for smart monitoring applications*

CERTIFICATIONS & ACHIEVEMENTS

- **GNA Hackathon 4.0 [Finalist]** | Built Personalized Learning Platform for student with cross platform for Teachers and Parents to track performance.
- **Udemy Certified Web Developer** - Udemy
- **Winner - Athena Hackathon 2024 (College Level)** | Built cheating free website for giving online test

EDUCATION

B.Tech in Computer Science

2023 - 2027

Punjab College of Technical Education, Ludhiana, Punjab | CGPA: 7.4/10.0
